I suppose Wilkins will also want to region it in The Crisis. I note your request to send a list of books to in Francom. This is being deso today. I note your reference to the Crisis being barred from Trinidad. Ints does not surprise me, naturally. It is a wonder that it has not been barred olsewhere, in view of the articles we have carried on the ways of imperialism. C.C.B. for A.G. PRESS

Re: GEORGE SCHUYLER INTERNAL SECURITY-J CUSTODIAL DETENTION

Dear Sir:

Reference is made to the report of Special Agent made at New York City, February 22, 1943 in the case entitled, PITTSBURGH, COURIER. DISSEMINATION OF JAPANESE PROPAGANDA AMONG THE NEGROES. INTERNAL SECURITY-J. SEDITION."

In this report additional investigation on subject, SCHUYLER, was conducted by the reporting agent. The results of the investigation indicated that subject, SCHUYLER, has been known to be strong in his racial views, but that there has been no indication that subject has been disloyal to the United States. A review of the bank account of at the Corn Exchange Bank, Washington Heights branch, New York City, revealed no information of value with regard to instant case. No bank account was located for subject. SCHUYLER.

At the present time, the above captioned case is in a pending status in the New York City Field Division, the only outstanding undeveloped lead being to verify subject's former employment on the Federal Writers Project, W.P.A., New York City. No investigation is contemplated in respect to this lead at this time.

In view of the information presently available on subject, GEORGE SCHUYLER, as is set forth above, no further investigation is contemplated in this matter by the New York office, and this case is being closed in this office. RECORDED & INDEX

The Fittsburgh Courier is a Negro Publication with a nation circulation of, 250,000. Although it is published in, Pittsburgh, its est circulation is in the New York and other Eastern and Southern Cit I learn that it has its largest sale, here, an account of the fact that and George Schuyler, two of their Columnists are, the most of standing Negro whiters in this Country and, they are living in, New York Their writings and opinion carries great weight with their people. It said that the paper's smallest circulation is, in Pittsburgh, where it is published.

Japanese angle

For several months-in fact over a year-I have been following solver's articles. He is always waging a fight for the Japanese intermed out in, California. He will write an article on this subject, every few blaming the U.S. for putting these Japanese*-American in Camp. He spends lot of paper and ink, worrying about them. It is difficult to understandard why he, a Negro should be so much concerned about the Japs instead of, the ing the part of his own people and other loyal Americans. ROGERS SAYS:

Race Mixing Is One of the Great Truths of Nature and No Laws Can Stop It

BY J. A. ROGERS Pulleburg Courses DOROTHY THOMPSON, whose plain-speaking on "face," places her in a class with Rearl Buck and Wendell Willkie, was recently quoted as saying, "One of the bases for interracial hate is sexual fear." This is a fact that the bolder Negro writers have been pointing out for a long time. Sexual fear is not only "one of the bases," but it is the base. Miss Thompson adds. "The & white man fears the vigor of the black."

ALL HUMANITY IS MIXED

To get to the origin and the root of this matter. I have proved, I think, conclusively, elsewhere that the mixing of so-called "races" is one of the great established truths of Nature. White and black have been mixing ever since there was a so-called white race, and that probably goes back 150,000 years. That all humanity is mixed is a fact that only dishonest thinking politicians, or ivory skulled individuals—people who are dead from the jawbone up-

I shall always remember a scene I saw at the Casino de Paris in 1927, in which Benglia, a Coalinack, Algerian, his superbeduse of set of the Englia, a coalinack Algerian, his superbeduse of set of the English, strike English, gris.

These white girls leaned all over MY GREAT objection to Hitler is his black body, while the European men and women applauded and the Americans growled. I saw the same with Josephine Baker and her white dancing partners. The juxtaposition of white flesh and of yet. I oppose him rather for black flesh was an artistic novelty for the white man of Europe.

THE same was true of the movies. I saw—as I reported in my articles in the Negro press at the time
Benglia in more than one film

white heroines. In short, if there
was any prejudice it was distinctly in favor of the black. What
hatred the white European had

other whites, like himself. The German and the French had an undying hate for one another, while

COLOR PREJUDICE

The white colonists to the New World in the 16th century, having no color prejudice in Europe, brought none with them. Racial distinctions arose, not from sexual causes, but from economic ones. In what is now the United States there was this difference, however. The white men brought white women with them and thus arose laws against race mixing, laws which collapsed, however, with the abotton of the slave trade and the creased need for Negro labor.

This country probably has as many of its citizens in concentration camps as has Germany. Spokesman for 70,000 of these Japanese-American citizens held for the "crime" of being Mongolians, met last week in New York at "Common Ground" where all "races" meet in good fellowship, but there was no wave of optimism. They had been too sobered by their experience with democracy in action, which so far has cost them \$400,000,000.

PEARL BUCK meanwhile was appearing before the House Immigration Committee urging repeal of the Chinese exclusion law which humiliates an ally and aids Japanese propagandists. This outrageous law is strictly racial. Axis nationals may become citizens but not an Oriental. Even Mme. Chiang Kai Shek, Lin Yutaug, Mahatma Gandhi or Nehru would be barred.

Possible retreat from racial insanity was indicated last week when the U. S. Supreme Court refused to review a decision holding that persons of Japanese ancestry born in this country are citizens. Native Sons of the Golden West had fought the federal court decision on the ground that Japanese were unfit for citizenship because "dishonesty, deceit and hypocrisy are racial characteristics." Of course this makes them unique in a country like this.

SHARPEST, most revealing, most bitingly factual book on the Far East was published last week by Howell, Soskin, Inc., New York. Written by Harry Paxton Howard, who lived in Japan and China for 25 years before Pearl Harbor. No more scathing denunciation of Anglo-American imperialism in the Far East has been penned. All the dirty linen is thoroughly washed and hung up for inspection. It is called "America's Role in Asia." It's a "must" at \$3.

IT TOOK eight months for the U. S. Navy to get around to commending Mess Attendant Charles Jackson French for towing a raft of shipwrecked and wounded U. It took the Navy less time to "find" Dorie Miller and give him a medal, even if we did have to raise Cain to get action. Colored people would appreciate a little more speed, Secretary Knox.

VIEWS and + Reviews +

By GEORGE S. SCHUYLEB

All minority groups in the United States ought to be deeply concerned over the drive being conducted by viciously reactionary elements to take away the citizenship of native-born citizens of Japanese ancestry.

The Native Sons of California, a Fascist outfit, is fighting to have Japanese-Americans barred from voting, although the case has been thrown out of Federal courts twice. The California Assembly, has just passed a bill authorizing the State to take over the farm equipment of Japanese-Americans which has been stored since these citizens were summarily and, I believe, unconstitutionally, placed in what the Nazis call "protective custody," solely on the basis of "race." The same Assembly passed on April 28 a bill which will strengthen the State's action in dismissing 80 civil service employees of Japanese ancestry solely because of "race."

. * 1

The odious Congressman Rankin of Mississippi has introduced a bill in the House of Representatives providing for the incarceration of all persons of Japanese ancestry in this country for the duration of the war. A similar bill has been introduced in the Senate by Senator Tom Stewart of Tennessee. The California State American Legion has joined the Native Sons of the Golden West in a campaign to prevent those Japanese-American citizens now in concentration camps from ever returning to their homes on the Pacific Coast. The Denver Post, America's worst example of yellow journalism and rampant racial chauvinism, has gone all-out in a smear campaign against the so-called relocation centers where the citizens and non-citizens of Japanese ancestry are allegedly "coddled" and "pampered." Recently in San Francisco, Lt. Gen. John L. DeWitt declared, "A Jap's a Jap . . . it makes no difference whether he is an American citizen or not," which effectually killed plans afoot to return them to useful work on the Pacific Coast.

The drive to take away the citizenship of native-born Americans simply because of "race" is in full swing. More ominous, the Native Sons of the Golden West has suggested that citizenship also be taken from Afro-American citizens. This is another reason why Negroes should be concerned about the mistreatment of Japanese-Americans. There has been talk of sending these citizens "back" to Japan (where most of them have never been) after the war. This is exactly what Senator Bilbo has been contending for the Afro-American citizens.

We should get out of our heads immediately the idea that this program cannot and will not be carried out. The Negro is no longer vital to the economy of this country, and with increased education and growing militancy and political power, he is coming to be regarded as a numerice and social incoming by many industrial whits people and organizations. If there is a post-war depression, that feeling will grow, and unemployment and increased labor competition will speed its growth.

will speed its growth.

We have seen how the Reds and Nazis have moved whole populations with callous disregard for their wishes or feelings, and we know of the annual shifts of hundreds of thousands of Africans to the gold and diamond mines of South Africa. There will be ample shipping after the war for such an enforced emigration. No one who is honest and knows the power of demogoguery and racial chauvinism will doubt that such a horror can happen here.

Once the precedent accident accident accident in the precedent accident in the case of Afro-American citizens. So whether or not we care anything about the fate of the Japanese-American citizens, we must champion their cause as ours.

Some colored folk have said we should remain indifferent because the Japanese-Americans have never chempioned our cause and sought to avoid us at all times. While this is not entirely true, it would make no difference if it were true. The point that is important is that we must fight with all our might against discrimination based on "race" or color, no matter who is involved. We are expending our money and lives, and undergoing privations, in order to save the Dutch, Belgians, Norwegians, Greeks, Russians, British, French and Chinese, and yet THESE people have never championed our cause. Indeed, some of them have been the worst exploiters of our people—in the past and are today. Our boys are also fighting to save such Neanderthals as Bilbo, Connally, Rankin, et al, and yet no one will contend that such "race-baiters" have ever championed our cause.

* * *

These Japanese-American citizens are NOT in concentration because of the commission of any crime against the state. The contention that 70,000 citizens among the millions of whites on the Pacific Coast constituted a danger is a fantastic falsehood. These people are the most industrious, thrifty and best behaved citizens in this country. Thousands of them are the offspring of American-born Japanese-Americans. Other thousands are the offspring of mixed marriages, many having blonde hair and blue eyes, and look no more Japanese than I do. They had farms, businesses, civil service jobs and professions. They sent their children to school and college, and did all possible to measure up to American standards. They were put in concentration camps SOLELY because of "race," and the principle behind their jailing is exactly the same as that behind the jailing, torture and murder of the Jews under Hitler's jurisdiction.

Their fight is our fight . . . and the sooner we realize it the better.

EDITOR'S NOTE—Substantiating the contention of this week's "Views and Reviews" column, and calling attention to the situation in no uncertain terms, THE CHRISTIAN CENTURY, in its issue of May 5, 1945, made this strong editorial comment:

"'Military necessity' was the reason offered by Lt. Gen. John L. DeWitt last year when he ordered the evacuation of over 100,000 Japanese-Americans from their homes on the West Coast. The public did not have the facts and was in no position to dispute this assertion. Since then, however, it has become clear that factors other than military necessity were at work. One of them came to light last week with unmistakable clarity. A strong movement is underway to return some American citizens of Japanese ancestry to the West Coast. where they are badly needed in food production and distribution. This movement was discussed in the hearings held by the House Navai Affairs sub-committee in San Francisco. General DeWitt came before that body and opposed the proposal. 'A Jap's a Jap,' he pontificated, adding that 'it makes no difference whether he is American citizen or not. . . . I don't want any of them. We got them out. They were a dangerous element. The West Coast is too vital and vulnerable to take any chances."

"The General said he was opposing by every means I can," the idea that Japanese-Americans should return to their former homes. He was not worried about the Germans or the Italians on the Coast, he said, but "the Japs we will be worried about all the time until they are wiped off the face of the map." Why should a man who can talk in this fashion be trusted with the absolute power over the Constitutional rights of American citizens with which President Roose-velt's Executive Order invested him? It is fortunate that the General's self-revelation came at this time. The Supreme court, which has before it two cases which challenge the legality of the interument orders, should find his statements a real assistance in reaching its forthcoming decision."

(This solumn represents the personal opinion of Mr. Schuyler and in no way reflects the editorial opinion of The Pittsburgh Courier.—The Editore)

The magnificent confidence of our leaders in the successful out come of the war is indicated by the time they are giving to keepin the Negro in his place. They seem to be devoting a great deal c'their energies, day and night, to devising new methods and revisin old methods of thwarting, handicapping and insulting Negroes, at parently for fear they may come out of the conflict full-fledged citizen

Since our leaders began planning to get into the war, some time the first in 1939, and the Army and Navy were rapidly expanded, I have been rescinated by the ingenious efforts to prevent colored peop from earning a full citizenship status, and to discourage the intell gent minority. One would never think they were fighting to the deater against an implacable foe on each side of the world. Indeed, or sometimes asks whether they are not fighting the Negro harder the they are fighting the Germans and the Japanese. Certainly man German and Japanese prisoners are being treated better than som of the Negroes wearing the uniform of Unele Sam.

As soon as it was definitely established that Negroes were to he herded into separate Hitlerlike racial units, it was a foregone conclusion that Jim Crow would ride again—this time under the protectio of the Stars and Stripes. Segregation and discrimination are as it. separable as the Slamese Twins, so when Dr. Roosevelt blessed segre gation, it was clear that the whole ideology behind the drive for we was fraudulent; he, we were not entering the war to end the menac : of recialism and fascism but simply to put down the German and Japanese brands. It is wrong to pretend that the President is no responsible for the wave of jim crowism in the armed forces becaus he is the Commander-in-Chief of all the armed forces and could a least have issued orders that since we were fighting for freedom and equality absoad, swe must safeguard them at home. But the President ran true to form, and ducked the issue in war as he had in beace, from the time of the jim crow NRA down to the demise of the WPA and the NYA. There was a definite and traditional bi and the President was not disposed to challenge it, despite all the weeping of grocodile tears about the parsecution of minorities abroad

Once we had accepted the jim crow pattern, all forts of evils oured from it. The wnites who had exchanged mutti for khaki were ermitted a field day of insulting, beating and discouraging young egroes who fell into their clutches via voluntary enlistments and re draft. The military ghetto (separate Negro barracks) made it prestance in every post, and many commanders worked overtim

new tortures. Although a military reservation is property where the laws of states do not obtain, Messrs. property where the laws of states do not obtain, Messrs. Reserval

plicas of civilian ghettoes in every military and naval reservation.

A colored sergeant, stationed in Mississippi writes me: "Las' month the Inspector General was in the area. He was surprised that the post hospital had signs on the washroom mirrors for Negroes and waltes to use espanately. He had them, removed. Als: ron areas. But the Southerners got around that by putting up the desig nated signs on the inside of the latrines. Of course those responsibl should be court markialed and cashiered, but they haven't been an 24.9 1 1/2 will not be.

The 184th Fleid Artillary was conderately and maliciously de troyed simply because it was too efficient, not because the Arm does not need trained artillery. The historic 9th and 10th cavalr regiments, crack outfits since 1866, have suffered the same fate. There has been so much barefaced discrimination in the promotion of Negro officers that it is a major scandal. One would need severe sheets of paper to figure up the number of Negro soldiers who have been beaten up, falsely arrested, jailed and sometimes killed for al leged offenses that would have netted white soldiers a reprimanor confinement to quarters.

I know that several Negro officers have been discharged for al leged physical disability when actually they have been ousted be cause they resented this victous system which is so demoralizin to white and black alike. The Government doctors are now calling these officers' manliness "psycho-neurosis" and they are thrown ou: as unfit to be soldiers.

Enlisted men outwardly resentful of the Nazi-like military setu; are also discharged under Section 8 as unfit to be soldiers. One col ored officer thus heaved out was a graduate of three service schools and yet he was declared unfit although white incompetents were be ing promoted all over the place.

Who can believe what the official Messiahs say about the ideal which we are fighting when they permit them to be to grossly cked in every part of our country?

The antire policy of the Division in regard to colored officers and callsted personnel is such as to warrant the utmost condemnation. These outrages in a military unit supposedly dedicated to the preservation of democracy constitute a most bewildering paradox. If these practices are representative of the things we are fighting for, then it is one helluva note."

Brethren, I believe every word of this letter. Don't you?

Unhappily this seems to be what the colored brethren are fighting to preserve, except in the Russian Army and Navy where jim crow was buried long ago-along with kulaks, real Communists and so-called counter-revolutionaries. Certainly the other Allied armies are shot through with Negrophobia and color caste. It is a global disgrace, but such eminent mouthmeticians as Churchill, Roosevelt, De Gaulle, Eden, Wallace, et al, will not even mention it because they do not intend to disturb it. GEORGE S. SCHUYLER SOURCE OF INFORMATION

Reference is made to previous correspondence in this matter relating to the possibility of developing Schuyler as a source of information in Communist matters.

The Bureau has analyzed your observations in this regard and while they are indeed appreciated, it is felt that the risk involved in this type of an interview with Schuyler does not warrant contacting him at this time on Communist matters, particularly because of the fact that there is no present assurance that Schuyler can supply information of a most specific or valuable nature than that which is forthcoming from other established sources.

While authority is not being granted at the present time for you to interview Schuyler along the lines indicated in previous correspondence, the Bureau desires to point out that the observations made by your field division are welcome and you are requested to continue exploring the personal fities of developing them as sources of information or informants in Communist matters. The difficulty in the development of sources of information and informants in Communist matters is appreciated and your efforts in this matter reflect that your field division is alert and conscientious about developing new sources for information on Communist activities.

Source of Information

With regard to the recommendation by your office that Schuyler be interviewed under pretext for the purpose of possibly developing him as a source of information, this is to advise that the Bureau is in accord with such recommendation. Of course, the interview, as previously pointed out, should be undertaken most discreetly and a carefully planned pretext should be utilized.

You should advise the Bureau promptly of all pertinent results obtained from the interview.

(This column represents the personal opinion of Mr. Schuyler and in no way reflects the editorial opinion of The Pittsburgh Courier.—The Editor)

Pacifisfs and liberals used to say that war never settled anything. That was before the Jap attack on Pearl Harbor ushered in the great Era of Curving which started all except Quakers and Father Divine's Peace Mission baying for blood. Parenthetically, I might point out that the Communists and fellow travelers who a while back were yammering for peace and baiting Roosevelt as an imperialist, are now excelling Senator Pepper in warmongering. To quote Dr. Johnson, "Patriotism is often the last refuge of a scoundrel."

The pacifists and liberals were wrong of course. War does settle things most definitely. War and only war settled the issue of chattel slavery in the U.S.A. War and only war got the Czar and his clique of parasites off the backs of the Russian people, just as it may reacue them from Stalin, and the German people from Hitler. War decided whether North America was to be French or English, and war certainly settled for a long time the fate of the Agreeme and East Indians.

Four months ago Indian freedom seemed as remote as a Negro officer in the U.S. Navy. Today Cripps sits down and talks turkey with thhe brown leaders while the masses holler, "It won't be long now!" War and only war did this.

Four months ago Javanese leaders sweltering in concentration camps could look forward to nothing better than burial under a neighboring banyan tree. They had no more chance of getting free than I have of renting an apartment in a Jewish dwelling in the Bronx. Today they are fronting for the Japs in Batavia, Bandoeng and Surabaya where once be-monocled white officials guzzled gin slings in air conditioned offices.

Malayan Communists "detained" for years by the British, suddenly had rifles shoved into their paws and were invited to go into the jungle and die for democracy. Only war made that possible.

Not even the most opium-crazed Filipino revolutionary believed on December 6, 1941, that white folks would soon be as scarce in his country as beefsteaks in Berlin. The war brought this about.

Where would Negroes have been in the U.S. Army but for the war. Like the bear, they would have been nowhere. Three years ago it would have been harder for a colored citizen as healthy as Joe Louis and as wise as Einstein to become an Army pilot than it will be for Senator Connaily to enter the Kingdom. Today several Negroes have their wings and more are to follow. There may even be Negro naval aviators before The Mikado dives into the nearest volcano. The war is doing this.

Not since the Civil War have we heard so much about Negro rights from the lips of prominent white people. Even the President has broken his long silence to denounce color discrimination. Before the war is over he may end it by ukase. Suppose the carnage lasts long enough, may there not be Negro guests in the Mayflower Hotel in Washington, D.C.? Stranger things have happened. How few of this leadily white fells in Changhai Integring four month ago that they would soon be saying "Yassah, Boss" to bandy-legged Japanese officials? "War," as Karl Marx has said, "is the midwife of progress."

.War is already steadily removing the trash heaps and dumps that have long fringed every American city. Nationwide collecting of needed waste paper, iron, rubber, tin, aluminum and copper is doing the trick. Auto graveyards will shortly be a thing of the past. Defense housing will soon be eliminating more rookeries and slums than were ever touched by peace-time federal efforts.

War uncovered the terrible physical condition of American youth

War uncovered the terrible physical condition of American youth brought on by the refining and processing of food. Now a nationwide campaign is afoot to give Americans proper nutrition and assure a healthier posterity, if any.

a healthier posterity, if any.

One Congressman (who should receive the Congressional Medal) has suggested that the 90,000 cast-iron statues of dead generals and lesser heroes be melted down into tanks and cruisers. Imagine being able to get rid of the treasonable Confederate statues that uglify every Rebel town square. Only war could do that:

War is also settling the question of real Negro leadership: i.e., those who REALLY voice what Negroes think and feel. Already the conflict has disclosed those pretenders with clay feet, rubber spines and white livers. The phonies, lickspittles, cringers and rats who want us to forget about democracy in order to preserve "democracy," are being shown up daily. Erstwhile Communists, fellow travelers, "liberals" and "race men," once so eloquent in demanding full citizenship rights for all, are now tattling to Washington officialdom in an effort to squelch those who still speak out against wrong. One of these Reds just last week was loudly complaining about this column at a conference in Washington. Three years ago he dubbed me a "Fascist reactionary." It is to laugh!

Yes, this war is going to bring an awful lot of changes.

On August 27, 1951, Cedar Rapids, Iowa, advised that he had received a questionnaire concerning the strength and breakdown of his police department from GEORGE S. SCHUYLER, Associate Editor of the "Pittsburgh Courier", New York Branch, 2091 7th Avenue, New York 27, New York.

felt that the information sought by SCHUYLER was of a confidential nature to his department and so advised SCHUYLER by letter on August 21, 1951. In answer to this communication, SCHUYLER, by letter dated August 24, 1951, stated that he had sent about 350 copies of the questionnaire to Chiefs of Police in all parts of the United States and that almost 300 had gladly supplied the information requested in the questionnaire, apparently without feeling it was a confidential matter.

stated that he felt the information requested in the questionnaire could be used as a probe into the internal security affairs of the United States and further used as propaganda for racial issues if placed in the wrong hands.

Enclosed herewith is a copy of the questionnaire, two letters from SCHUYLER to from the Chief to GEORGE S. SCHUYLER and one letter

Dear sir:

Some weeks ago we sent you a copy of the inclosed questionnaire requesting that we have your cooperation in filling it out for the purpose indicated. Not having received it back we assume it was displaced during the vacation doldrums, so we are sending another.

We shall feel gratoful to you if you will return it, completely filled out, just as soon as you can find time to do so. We have received replies from almost all of the 300 cities interrogated but want response from all before compiling data.

Sincerely yours,

Yours of August 21, 1951, at hand and contents noted.

The questionnaire and request for cooperation was sent to about 350 chiefs of police in all parts of the United States and well nigh 300 have gladly supplied the simple information requested, apparently without feeling that it was confidential. It is certainly not a frivolous request and so far the information obtained has been very illuminating and instructive. It will be of immense aid to me in completing the very serious study I am making.

I do hope you will see your way clear to give the requested information.

George S. Schuyler, as a representative of the Socialist Party, wrote an article entitled "Socialist Point of View," which was published in the June, 1933, issue of "Economic Justice," official publication of the National Religion and Labor Foundation. In this article behinder set out the following program for the Socialist Party:

- 1. Organize workers into union.
- 2. Consumers and producers must organize.
- 3. Workers by hand and brains must organize their own working class politically. (100-168327-8)

An article in the July 30, 1943, issue of the "Daily Worker," east coast Communist newspaper, reported that 800 labor, religious and civic leaders from four states had joined in sending an open letter to President Roosevelt, expressing appreciation of his position against discrimination and attacks upon Negroes and other racial minorities, and urging him to take further action to prevent outbreaks of anti-racial violence. This letter was circulated by the International Labor Defense, and George S. Schuyler, associate editor of the "Pittsburgh Courier," was reported to be one of the signers of this letter. The International Labor Defense has been cited by the Attorney General as Communist. (44-809-A)

The March 30, 1944, issue of the "Daily Norker" contained an article entitled "Schuyler's Poison," which was written by Dozey Wilkerson, at that time Vice President of the Communist Political Association of Maryland. In the article, Wilkerson book described Schuyler as a pro-Facist columnist and severely criticized Schuyler's defense of who had been accused with thirty others of conspiring to further Nasism in America and to overthrew "our so-called democratic form of government."

(100-6611-35)

EXPRESSIONS OF OPPOSITION TO COMMUNISM

Schuyler, in his column, "Views and Reviews," in the April 4, 1944, issue of the "Pittsburgh Courier," stated that several correspondents had taken exception to his identification of Fascism with Communism and had written in for an explanation. Schuyler explained, "I purposely created this uproar because I have noticed that a dangerously large percentage of so-called thinking Negroes have swallowed the Red propagands hook, line and sinker without thinking." Schuyler's article went on to show that Communism as practiced in Russia and Fascism as practiced in Germany were alike. He stated, "In short, Fascism and Communism

Com. X

run totalitarian states with identical tactics. So judged on performance there is no difference between Fascism and Communism so far as the masses of people are concerned... The totalitarian state, no matter what its name and its slegans, is a menace to human freedom, and Americans will do well to rid the country of both influences which are in practice identical."

(100-82799-A)

Schupler, in his column of April 4, 1947, in the "Pitte-burgh Genrier," pointed out that for several years he had been fighting Communism because he knew that the Communists were working solely in the interest of the Kremlin and only concerned themselves with the so-called Negro problem because it was a means of undermining American society. He explained that he had tried to point out to Negro leaders the dangers of involving themselves in this "international conspiracy." (100-135-53-258, p 28)

An article in the June 28, 1947, New York edition of the "Pittsburgh Courier" stated that Schuyler, in a speech before the Catholic Interracial Council, 20 Vesey Street, New York
City, had charged that the Communists were the worst menace to
Negro freedom. Schuyler declared that since the formation of
the Third International in 1919, the Communists had conseived
to further world revolution in general and American civil war
in particular, by playing upon racial, class, and national prejudices and animestities in the hope of coming to power in the resultant tragedy and confusion. Schuyler further stated that
the mainstays of the Party, among Negroes, were not the working
class leaders, but were the middle class intellectuals who were
more intrigued by Red professions than practices. (100-135-34-581, p 33

The November, 1947, and January, 1950, issues of "Plain Talk," an anti-Communist pumphlet published in New York City, reflect that Schuyler was one of the contributing editors of that publication. Schuyler was also author of "The Communist Conspiracy Against the Negroes" and "The Red Brive in the Colonies." These were pamphlets Number 4 and 19 in a series on Communism published by the Catholic Information Society, 214 West 31st Street, New York 1, New York. (94-36511-69, 110; 100-3-2126)
